Submission Date	Jun 6, 2026
1. How often do you update your work account passwords?	Every 6 months
2. I use a unique and strong password for each of my work accounts and systems.	
Select your response	Neutral
3. Which of the following email signs would make you suspicious? (Select all that apply)	The email contains an unexpected attachment or shortened link The email requests that you bypass a normal approval process
4. I feel confident identifying a phishing email or a suspicious link before clicking on it.	
Select your response	Neutral
5. In your opinion, what is the biggest gap in how the organisation currently handles phishing threats or suspicious communications?	I believe that current prevention mechanisms are insufficient and hinder swift action; for example, I cannot distrust every email I receive because I won't be able to do my job efficiently.
6. What do you typically do when leaving your workstation unattended?	Lock the screen immediately
7. I apply software and security updates on my work device promptly, without delaying or dismissing them.	
Select your response	Strongly Agree
8. What would you do first if you suspected a cybersecurity incident on your workstation or account?	Inform my direct manager first
9. I know exactly how and where to report a cybersecurity incident within this organisation.	
Select your response	Neutral
10. Have you read and understood the organisation's cybersecurity policy?	I have only read parts of it
11. The cybersecurity training I have received so far is sufficient to handle threats relevant to my role.	
Select your response	Neutral

12. What one improvement would you suggest to strengthen cybersecurity awareness or practices in your workplace? Please be as specific as possible.	Organizations should have automated mechanisms for preventing phishing and impersonation.
